CHALLENGE YOURSELF!	42-43
FRACTION FACTS	44
BASIC FRACTIONS	45-47
HOW GOOD ARE YOU?	48-59
10 BASIC RULES OF MULTIPLICATION AND DIVISION	60-62
10 BASIC RULES PRACTICE ACTIVITIES	63
MULTIPLICATION CHART	64

Learning Ideas!

Try something different. Sing the Time Tables as a morning ritual at home or in the classroom.

A great way to cement knowledge is to verbalise the process to someone else. Have children explain to a teacher, parent or peer how they came to their answer. For example ask them to use the *Multiplication Chart* to explain why $6 \times 6 = 36$.

Use timed tests (*Challenge Yourself!* sections) to add some pressure so children can become comfortable with a test environment. It is important to provide opportunities where they can learn to override the anxiety that comes with a 'test' situation. Perfect for NAPLAN readiness!

Three Times Table

$3 \times 1 = 3$

$3 \times 2 = 6$

$3 \times 3 = 9$

$3 \times 4 = 12$

$3 \times 5 = 15$

$3 \times 6 = 18$

$3 \times 7 = 21$

$3 \times 8 = 24$

$3 \times 9 = 27$

$3 \times 10 = 30$

$3 \times 11 = 33$

$3 \times 12 = 36$

Basic Fractions

Activity 1

There are **4** apples in a bucket.

1. Colour in **1 quarter** of the bucket of apples.

2. Colour in **2 quarters** of the bucket of apples. This equals **1 half** of the bucket of apples.

3. Colour in **4 quarters** of the bucket of apples. This equals **1 whole** bucket of apples.

Draw a line to match the fractions.

Example: $4 \times \frac{1}{4} = 1$
is the same as $\frac{4}{4} = 1$.

Match Up!

$$2 \times \frac{1}{2} = 1$$

$$\frac{6}{6} = 1$$

$$8 \times \frac{1}{8} = 1$$

$$\frac{2}{2} = 1$$

$$5 \times \frac{1}{5} = 1$$

$$\frac{8}{8} = 1$$

$$3 \times \frac{1}{3} = 1$$

$$\frac{7}{7} = 1$$

$$7 \times \frac{1}{7} = 1$$

$$\frac{5}{5} = 1$$

$$6 \times \frac{1}{6} = 1$$

$$\frac{3}{3} = 1$$
